

## The Lighting Intake Form

Use these fields to help you prepare for the consultation before you even arrive.

- **Primary Goal:** What is the main reason for this project?
  - *Options:* Modernizing the Look / Better Visibility for Tasks / Improving Security / Creating a Relaxing Ambiance.
- **Focus Areas:** Which spaces need a "Vibe Check"?
  - *Checkboxes:* Kitchen, Master Suite, Outdoor/Landscape, Home Office, Living Room.
- **Style Preference:** What design language speaks to you?
  - *Options:* Minimalist (Recessed/Hidden) / Industrial (Exposed Bulbs) / Traditional (Chandeliers/Sconces) / Modern Smart Home.
- **Current "Pain Point":** What bothers you most about your current lighting?
  - *Options:* Too dim / Harsh "Hospital" feel / Flickering / Ugly outdated fixtures / No easy way to dim.
- **Tech Level:** How would you like to control your lights?
  - *Options:* Standard Switches / Dimmer Sliders / Smart Phone & Voice Control / Fully Automated Scenes.

---

## Visualizing the Layers<sup>1</sup>. The Three Layers of Lighting

- **Ambient Lighting:** The foundation. General illumination for safety and visibility (Recessed cans, chandeliers).
- **Task Lighting:** Precision power. Focused light for cooking, reading, or working (Under-cabinet LEDs, pendant lights).
- **Accent Lighting:** The "Vibe." Highlighting art, architecture, or landscaping to create depth and drama.

---

## Category Grid

Category	What's Included
Indoor Modernization	Recessed lighting (wafer lights), dimmers, and ceiling fan installs.
Kitchen & Bath	Under-cabinet LED tape, vanity lighting, and moisture-rated shower cans.
Smart Lighting	Whole-home automation (Lutron Caséta), voice control, and "Scene" setup.

<b>Outdoor &amp; Accent</b>	Landscape path lights, tree uplighting, and string/bistro lighting.
-----------------------------	---
